**Cholestech LDX®**

The Cholestech LDX® System makes it possible to provide a complete lipid profile with tests for total cholesterol (TC), HDL & LDL cholesterol, triglycerides, and glucose (GLU), as well as tests for ALT and AST (for liver enzyme monitoring), and high sensitivity C-reactive protein (hs-CRP)-all done in five minutes per test cassette (seven minutes for CRP).

The accuracy, speed and broad menu of tests available for the LDX System make it an invaluable tool in recognizing the risks of coronary disease, diabetes and metabolic syndrome.

The LDX System is comprised of a small, portable desktop analyzer and a toolbox of different test cassettes-Lipid Profile, Lipid Profile•GLU, TC•HDL•GLU, TC•HDL, TC• GLU, TC, ALT•AST, and hs-CRP.
